

I was dismayed by your failure to enforce sensible Equal Time standards in the recent Sinclair vs. Kerry dispute. Sinclair's so-called "POW news story" is nothing more than that RNC-funded political advertisement.

For you to place Janet Jackson's Breast at a higher value than our fairness of public information is contemptible. How can you impose strict, massive penalties on a broadcaster in one petty case, and look the other way in a more serious breach? It seems like "bait and switch" to me. Perhaps we can expect nothing better of political appointees under this corrupt Bush regime.

The fight goes on. Sinclair claims to have backed off from airing their Mock Schlockumentary in full... yet they use their press releases to attack and further slander Kerry and his campaign. WHATEVER biased content they end up airing, we the people DEMAND that you the FCC REQUIRE the Sinclair stations to broadcast, with EQUAL time and prominence, official Kerry campaign films.

We have been given extra time to resolve this. If you fail to act honorably, you can be sure that tide of public opinion will bring down not only Sinclair's corrupt media empire, but your biased FCC as well.
